

3M Document Holders

By keeping documents positioned as close to your computer as possible, document holders help reduce eye, neck and shoulder movement. This, in turn, helps minimise strain and enhances overall comfort.

Whether you need a Monitor Mount, Flat Screen Monitor Mount, Desktop or In-Line Document Holder, 3M has a model to suit most requirements. From our most requested DH640 In-Line Document Holder, Flat Screen DH445 Monitor Mount Document Holder to our budget DH340MB Desktop Document Holder, **3M can provide something for everyone.**

DH630 Compact In-Line Document Holder is the newest addition to our range. For workstations with less space. Provides same in-line document holding DH640. 35cm wide. Can stand alone or hang over the edge of desk when tracks are mounted with 3M™ Command™ Adhesive.

DH445 Flat Screen Monitor Mount Document Holder is sleek, lightweight and designed specifically for flat panel monitors, but will work just as well with traditional CRT monitors. Grooved ledge and height adjustable, it swings out of the way when not in use.

All products are available for trial. You can arrange a trial or obtain pricing by contacting 3M on **136 136** or your local Sales Representative.
